

Joel Palmer's tape of phone call  
to Nancy Bernin Beck has started  
no question: That he paid her for  
sex ("the money was quiet") in his  
appt & "he isn't leading words on  
The French quarter any more" -  
Many Farrell has - Palmer played  
it for Bond & me 12/2/68 & I listened  
again 11/26/71. He also refers to fear  
several times - wanting to live - owed to  
those who know what goes on in N.Y.  
better than Garrison. He makes  
threatening reference to FBI & State Police.  
The conversation  
was shortly before Palmer played it  
back to Bond & me.
